We can't wait to take this next step with you.
This new space will be more trauma-

possibilities.

WHAT'S NEW?

We currently have four families who are in the process of getting approved for housing!

We are happy to share the success of some of our families! One family is a single mom with two boys, who is currently in school to become a Dental Hygienist - graduating this February. The

other family is a single mom with a son in high school. The last family is a single mom with a daughter and another child on the way, she is due in December! We are excited for these families and their bright future ahead.

So far this year we've **assisted 221 people out of the 938** who have reached out for assistance. Our staff of ten assists every person that calls in with resources. They help them apply to our assistance programs and lend an open ear to folks that just want to be heard. **But we still have so much more to do and with your support, we can meet the needs of our our neighbors in a housing crisis.**
